# MagicPoint

This is a MagicPoint presentation running on  
SCO OpenServer 6.0.0.

The MagicPoint home page is <http://www.mew.org/mgp/>

This system's "/bin/uname -a" command outputs:  
SCO\_SV laurentw 5 6.0.0 i386

While the date command says it's:  
Tue Aug 16 12:52:28 PDT 2005

I created these slides using Vim (Vi Improved) - <http://www.vim.org/>  
This 42 slide presentation is done with a 29372 byte plain text file.  
Text in dark blue is output from system commands run at display time.

The logo for MagicPoint, featuring the word "MagicPoint" in a stylized, italicized serif font. The text is dark blue and has a subtle drop shadow effect, giving it a three-dimensional appearance. It is set against a light green rectangular background.
